ASSOCIATION OF FRIENDS OF FINE ARTS

2017/18 Sculpture Workshops with Art Holidays in Cyprus!

The Cyprus Association of Friends of Fine Arts organizes international Sculpture Workshops.

The workshops are combined with art holidays including visits to the rich archaeological sites and museums of Cyprus.

The workshops are open to professional artists from all over the world.

Each workshop hosts three (3) to four (4) persons and has a duration of two (2) weeks.

Five (5) days are devoted to the acquaintance of Cyprus, which includes visits to archaeological sites, museums, traditional villages, beautiful beaches and other places of interest, as well as one sailing excursion.

The rest of the days are devoted to the creation of two to three small marble sculptures which become the property of the Association.

The Association offers to the participants the necessary marble, tools (mainly a big electric grinder) and compressed air supply. The artists bring their own specialized tools.

The Association provides to each hosted artist free accommodation, meals and local transport and subsidizes her/his air fare with up to 300 euros.

The workshops are organized four times every year and are open to participations as follows:
